PHONE: (765) 342-4701
FAX: (765) 342-4760

The Division of Forestry's Fire Control Headquarters will be offering a "Prescribed Fire for Managers" course in cooperation with Ball State University at the Cooper Science Complex. This course will introduce the fundamentals of preparing and implementing prescribed fire burn plans within the State of Indiana for resource management and/or hazard mitigation. The course is based around classroom instruction and live fire exercises during a two day (16-hour) time frame.

Target Audience:

- ***Department of Natural Resources Personnel*** – Provides personnel with the knowledge and skills to develop Prescribed Fire Burn Plans for implementation on Departmental land holdings and for assisting private sector landholders.
- ***Private Sector / County Parks Departments / City Parks Departments*** – Affords the opportunity for individuals to develop knowledge and skills to write and submit burn plans for approval prior for fire management implementation.
- ***Ball State Students*** – To develop knowledge and skills relating to fire management in representative Indiana Fuel Types. 1 Hour of credit is available to qualifying students. Contact Dr. David LeBlanc (285-8832, dleblanc@bsu.edu) for credit under BIO 394 Practicum or Dr. Amy Gregg (285-5781) for credit under NREM.

Course Prerequisite:

- ***Students*** must have completed Basic Wildland Firefighter Training including S-130 Firefighter Training, S-190 Introduction to Fire Behavior, I-100 Introduction to Incident Command. Additionally personnel completing basic training in 2006 or after should have also completed L-180 Human Factors on the Fireline.

Date: March 17th & 18st, 2012

Time: 8:00 am – 5:00 pm

Location: Cooper Science Complex
Room CL 126

Class Size: Limited to 24 (minimum 15)

Course Cost: Ball State Student - **\$60**
DNR Employee – No Charge - accompanied with DNR letterhead documenting DNR employment.
Others - **\$75**

Registration: All registrations due **March 2, 2012** – see attached registration form.

Logistical Notes:

- Maps and directions to the Ball State University classroom are available from Dr. David LeBlanc (dleblanc@bsu.edu).
- There is a field exercise associated with this course that involves implementation of live fire. The field day is typically the second day (weather dependent) and often extends past the scheduled time frame.
- Dress is casual. Personal Protective Equipment will be required for the field exercise including:
 - Long Pants & Long-sleeved Shirt (Nomex, cotton or wool; NO SYNTHETIC CLOTH)
 - All leather boots (preferably 8" minimum with Vibram soles)
 - Hardhat, Eye Protection & Leather Gloves
 - Fire Headquarters will have limited personal protective equipment for those unable to acquire the above mentioned items prior to the course.
